Promotes Healthy Inflammatory Responses and Immune Modulation*

pHysio Plus™ provides an advanced blend of three powerful non-animal derived proteolytic enzymes, Bromelain, Serratiopeptidase and pHysioProtease®, which has clinically-proven to be highly effective in helping to manage inflammation, modulate the immune system and maintain optimal systemic health.*

Clinical Applications

- Supplies multiple subclasses of proteolytic enzymes to encourage healthy inflammatory responses in acute and chronic conditions*
- Boosts the immune system helping to moderate discomfort and swelling*
- Promotes a healthy inflammatory response to tissue damage, harmful microorganisms and environmental irritants*
- Activates plasma α-2-macroglobulins helping to facilitate the binding and rapid elimination of pro-inflammatory cytokines including TNF-α and IL-1 β*
- Targets immune complexes circulating in the blood and deposited in soft tissues for degradation and removal*
- Aids in cleansing and detoxification by promoting effective clearing of cellular waste and foreign substances*
- Supports healthy blood flow by helping to maintain normal fibrin levels and vessel wall integrity*
- Assists in soothing tense, inflamed muscles and connective tissue*
- Supports weight management by helping to control the formation of fat cells, accumulation of triglycerides and storage of fat in adipose tissue*
- Delivers maximum activity in the physiological conditions of the blood and other tissues of the body
- Withstands gastric acidity to be absorbed intact from the intestinal tract into the bloodstream*
- Clinically-proven to enhance the efficacy of supplemental herbs, vitamins, minerals and phytonutrients as well as complementary or alternative therapies*
