**Promotes Healthy Inflammatory Responses and Soft Tissue Maintenance\***

InflammEnz Plus™ provides an advanced, clinically-proven blend of powerful proteolytic enzymes from non-animal sources, modulating herbal extracts including Turmeric and Indian Frankincense, plus antioxidant nutrients to support soft tissue integrity by helping to balance cytokine activity and repair injured or damaged soft tissue.\*

**Clinical Applications**

- Building upon the proven effectiveness of ProEnzol InflammEnz™, this advanced formulation supplements the body's innate healing mechanisms to help accelerate soft tissue repair\*
- Assists in modulating inflammatory cascades enabling healthy repair, regeneration and remodeling of damaged soft tissue\*
- Promotes normal immune cell migration to sites of inflammation\*
- Encourages a healthy reduction in swelling by facilitating the removal of dead tissue and excess interstitial fluid\*
- Helps expedite normal soft tissue repair by stimulating the synthesis of collagen, glycoproteins and other extracellular matrix molecules\*
- Supports the maintenance of normal fibrin levels promoting healthy blood flow and the delivery of healing factors to the site of soft tissue trauma\*
- Aids in relieving discomfort by working with the body to moderate pain mediators and block sensory neurons\*
- Boosts the body's antioxidant defenses to help protect against oxidative damage to soft tissues\*
- Provides natural relief in acute and chronic situations without causing harm to healthy tissue or producing adverse side effects\*
