

Probiotic 50

Reformulation Details*

 **Reformulation Date:** **March, 2025**

Probiotic 50 has been reformulated to add three well-researched probiotic strains, Bifidobacterium infantis, Limosilactobacillus fermentum and Streptococcus thermophilus, to strengthen the product's ability to help relieve abdominal discomfort due to microflora imbalances, support the integrity of the intestinal barrier, protect against chronic inflammation and promote healthy immune function. Current research indicates multiple strain probiotic formulations are more effective than single strain ones. The potencies of the sixteen probiotics in reformulated Probiotic 50 have been balanced to better achieve the intended clinical applications for the product.

OLD FORMULA

Supplement Facts

Serving Size: 1 Vegan Capsule

Amount Per Serving	% DV
Apple PrePectin™ Blend	200 mg **
Apple (fiber and pectin)	
Proprietary Microflora Blend	
<i>Bifidobacterium lactis</i> (BI-04)	10.5 Billion CFU ^Δ **
<i>Lactiplantibacillus plantarum</i> (Lp-115)	8 Billion CFU ^Δ **
<i>Bifidobacterium anamails subsp. lactis</i> (HN019)	8 Billion CFU ^Δ **
<i>Lactacaseibacillus rhamnosus</i> (GG)	7 Billion CFU ^Δ **
<i>Limosilactobacillus reuteri</i> (1E1)	500 Billion CFU ^Δ **
<i>Lactobacillus acidophilus</i> (La-14)	3.25 Million CFU ^Δ **
<i>Bifidobacterium longum</i> (BI-05)	1.25 Billion CFU ^Δ **
<i>Lactacaseibacillus casei</i> (Lc-11)	3 Billion CFU ^Δ **
<i>Lactobacillus gasseri</i> (Lg-36)	1.5 Billion CFU ^Δ **
<i>Bifidobacterium bifidum</i> (Bb-06)	1 Billion CFU ^Δ **
<i>Lactacaseibacillus paracasei</i> (Lpc-37)	3 Billion CFU ^Δ **
<i>Ligilactobacillus salivarius</i> (Ls-33)	2 Billion CFU ^Δ **
<i>Bifidobacterium breve</i> (Bb-18)	1 Billion CFU ^Δ **
Total Cultures	50 Billion CFU^Δ

**Daily Value (DV) not established.

^ΔGuaranteed at time of manufacture

Other Ingredients: plant fiber, water.

NEW FORMULA

Supplement Facts

Serving Size: 1 Vegan Capsule

Amount Per Serving	% DV
Apple PrePectin™ Blend	210 mg **
Apple (fiber and pectin)	
Proprietary Microflora Blend	
<i>Lactiplantibacillus plantarum</i> (Lp-115)	8 Billion CFU ^Δ **
<i>Bifidobacterium anamails subsp. lactis</i> (HN019)	7.25 Billion CFU ^Δ **
<i>Bifidobacterium lactis</i> (BI-04)	10.25 Billion CFU ^Δ **
<i>Lactacaseibacillus rhamnosus</i> (GG)	7 Billion CFU ^Δ **
<i>Bifidobacterium longum subsp. infantis</i> (Bi-26)	1 Billion CFU ^Δ **
<i>Limosilactobacillus reuteri</i> (1E1)	500 Million CFU ^Δ **
